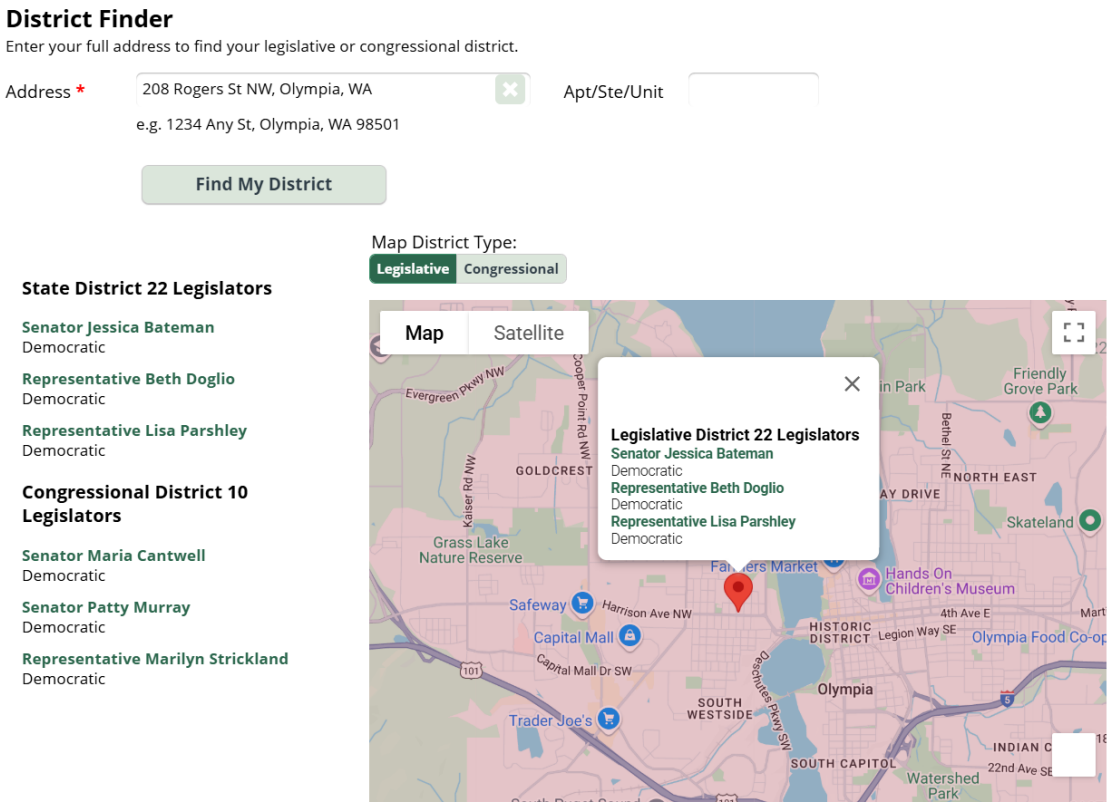
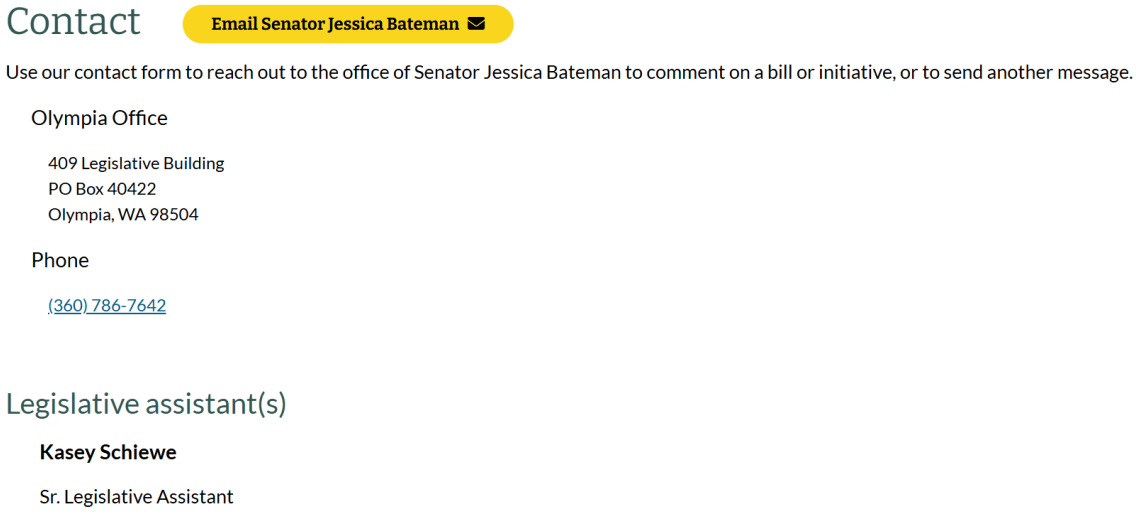
How to set up a meeting with your legislator:

1) Go to https://app.leg.wa.gov/districtfinder/ and type in your address.
2) The results will show your state legislators, and your national congressional legislators.



3) Click on the green text of your legislator and it will take you to their webpage.
4) Click the yellow button to email legislator. (Most legislators prefer email as they can use your email to refer to during committee or floor hearings)



5) After filling out the required information, write in the message:

Representative (insert name of legislator) or Senator (insert name of legislator),

I'm a constituent and I'd like to make an appointment for a zoom meeting with you to talk about (issues and bill numbers) fair contracting issues facing the physical therapy profession (HB 1589 and SB 5588).

Do you have any availability in the next week?

Thank you,
(Insert your name)
