

## HB 1082 and SB 5044

### Allowing Physical Therapists and Occupational Therapists to form multidisciplinary corporations to meet the needs of patients.

- Current law only allows physical therapists and occupational therapists to form professional service corporations with each other.
- HB 1082 and SB 5044 allow PTs and OTs to incorporate with a wider variety of health care professionals such as physicians, nurses, optometrists, behavioral health providers, dietitians, speech therapists, massage therapists, chiropractors and acupuncturists.
- Patients would be able to receive all their rehabilitation treatment under one multidisciplinary roof, saving them time and money, improving healthcare outcomes and speeding recovery.
- There is no opposition to these bills.
